## Environmental policy statement

Roularta Media Group (RMG) places immense importance on environmental care and sustainable energy use.

To achieve this objective, RMG commits to putting the following principles into practice:

- Strict compliance with all applicable legal obligations.
- The commitment to protect the environment and minimise the adverse environmental impact of our activities by:
  - Responsible use of raw and auxiliary materials
  - Careful separation and disposal of hazardous and other company waste, enabling optimal processing
  - Prevention of soil pollution
  - Treating emissions to meet standards
  - Inspiring employees to take responsibility for reducing energy consumption and environmental impact
  - Open communication with employees about environmental and energy policy, objectives, results and actions
- The commitment to continuously improve the environmental management system and thereby enhance our environmental and energy performance. We set appropriate objectives for this purpose.
- This environmental policy is implemented in participation with all stakeholders whom we consult if necessary.
